Jonathan's Story: Ready for the future, thanks to **YVLifeSet**

When Jonathan was 3 years old, he and his father left their native Haiti. Placed into foster care at age 12 due to abuse, he quickly learned to be independent. After being placed in seven foster homes, he finally aged out when he turned 18. Although he had a job and an apartment, things began unraveling soon, and Jonathan lost his home and income. Homeless and with nowhere else to turn, he searched online for "helping foster youth" and found YVLifeSet.

He enrolled in the YVLifeSet program and was matched with a specialist who is helping him work on achieving his goals. For a time, he lived in his grandmother's tiny apartment in a complex for the elderly. She was suffering from Alzheimer's, and Jonathan became her primary caretaker. When she died, he lost his beloved relative and was homeless again.

His YVLifeSet specialist met with Jonathan regularly, arranging for safe housing and helping him enroll in college. He is studying operations management at a local university, holds a job and is working hard on his academics. Jonathan is happy to be back to pursuing his life goals and makes time for volunteering, working out and doing outdoor activities whenever he can.

There are many challenges ahead, but YVLifeSet is giving Jonathan the support he needs to become a productive, independent adult.
