

June 16, 2011

Dear CCAP Child Care Provider:

We wanted to make you aware that there will be a temporary delay in payments to Child Care Assistance Program (CCAP) providers for the final period of June. This is due to end of the year financial processes that must occur at the end of each state fiscal year, which ends June 30. This payment delay will occur each year at this time because of end-of-year procedures.

The final CCAP payment for this state fiscal year will be available on June 24, 2011. The first payment for the new state fiscal year will cover the period from June 12, 2011, to June 25, 2011.

Payment for this period will be available no earlier than July 6. Additionally, while we do not think it is likely, there is a slight possibility that these payments may be delayed past this date as a result of when next year's budget, that is currently being considered by the Legislature, is passed and signed into law.

We apologize for this inconvenience and appreciate the continued services you provide to the children of our state.

Thank you,

Gail Kelso
Director
Child Development and Early Learning
