

Amendment #1 – April 17, 2007

The Louisiana Department of Social Services is amending the Genetic Testing RFP as follows:

3.2 Minimum Qualifications of Proposer

Item (c) - Page 11 change to read as follows:

Furnish College of American Pathologists (CAP) proficient testing accreditations for the current and the three (3) previous years for PCR; also furnish College of American Pathologists (CAP) proficient testing accreditations for the current and the three (3) previous years for RFLP, if available.

3.2 Minimum Qualifications of Proposer

Item (d) - Page 11 change to read as follows:

Have capability to perform either PCR or RFLP testing, or both, to establish paternity and provide number of PCR and or RFLP genetic testing performed in the last three years; and

Attachment I: Scope of Services

Item 5, c - Page 27 change to read as follows:

Furnish College of American Pathologists (CAP) proficiency testing accreditations for the current and the three (3) previous years for PCR; also furnish College of American Pathologists (CAP) proficient testing accreditations for other current and the three (3) previous years for RFLP, if available.

Attachment I: Scope of Services

Item 5, d - Page 27 change to read as follows:

Capability to perform either PCR or RFLP testing, or both, to establish paternity and provide number of PCR and or RFLP genetic testing performed in the last three years; and

Attachment II: Proposal Information

Item 2, Corporate Background/Experience/Financial Condition, second paragraph, Page 29 change to read as follows:

These references should include references for PCR experience over the last three years and also furnish RFLP experience over the last three years, if applicable.
